► **EXPLOSIVES SAFETY TRAINING LOCATION:**

Although all classes are available online, through Internet-based technologies, EXPLOSIVES ACADEMY™ also offers monthly in-person safety training and educational classes on a variety of explosives safety and mining safety topics. This brochure is designed to provide an overview of the Fort Lauderdale, Florida area, where monthly classes are taught. On-site training classes in other states are also available.

Benefits of in-person explosives safety education and training may include but not be limited to low instructor/ student ratio, customization of explosive safety materials, networking opportunities within the explosives industry, interaction among peers, the enjoyment of learning in a non-traditional classroom setting, and the pursuit of excellence in explosives safety certification and education.

► **EXPLOSIVES SAFETY TRAINING AGENDA:**

The topics to be covered during our classes are constantly updated on our website at: <http://www.explosivesacademy.org>

Each class may provide training on the safe storage, transportation, use, setup, emergency response, and management of explosives. Case studies and awareness-level exercises are an integral part of the classes. Classes are designed as a training venue, targeting law enforcement, government, military, and defense contractors, as well as general contractors, blasting personnel, and the private industry.

Classes begin each day at 7:30 AM unless otherwise specified. Classes scheduled for a full day will conclude at 17:00 on the first day. A detailed agenda will be sent to all registrants. Although breaks will be provided during the classes, lunch will be on your own. **Note that registration is now limited to 25 persons. Classes vary in size according to requirements of our students.**

► **CLASS INSTRUCTORS:**

The presenters are instrumental in the generation of the modules and documents to be highlighted during the training sessions. They are recognized leaders in the area and have extensive experience in technology development, evaluation, and application. They are certified professionals in blasting (explosives engineering) and hold a minimum of a Master of Science degree in an engineering discipline.

► **ABOUT BOCA RATON, FLORIDA:**

Boca Raton, a city known for its beaches, high tech industries, and shopping, is approximately 3 hours from Orlando, Florida, home to Disney World, Epcot, MGM Studios, and Animal Kingdom Park.

► **ABOUT FORT LAUDERDALE, FLORIDA:**

Fort Lauderdale is a city as famous for its beaches as it is for its canals, golf courses, and yachts. Originally inhabited for nearly 5 millennia by Native American Indians, it was, by 1838, the site of a second Seminole war fortification named for Major William Lauderdale. By the 1960s, it was galvanized as a Spring Break destination. Today, it is known as a family vacation hotspot within close proximity to fine dining, entertainment, clubs, and shopping. Fort Lauderdale, located between Miami and West Palm Beach, also offers a host of recreational activities, such as fishing, snorkeling, scuba diving, and boating.
