"The class was very informative..... and very helpful...."

UNITED STATES DEPARTMENT OF HOMELAND SECURITY (DHS)

THE EXPLOSIVES ACADEMY™

offers the largest and best selection of Internet classes on explosives safety, awareness, security, and education that span transportation, trucking, counterterrorism, setup, storage, usage, contractor's licensure, DOT, ATF, blaster certification, mining applications, and legal aspects of explosives.

All online, [Internet classes](#) require advance registration.

Certification is available to **EXPLOSIVES ACADEMY™** students.

Register now and get certified by degreed and licensed blasting professionals!

Simply click this image while online to view on YouTube™ :

49 CFR 172.704 requires hazardous materials transport and security awareness level training within 90 days after employment or job function change and at least once every 3 years thereafter. Are the staff members of your agency or facility in compliance? Let the experts at **EXPLOSIVES ACADEMY™** now certify your staff anytime and anywhere **ONLINE** or on **MOBILE TELEPHONE** or **TV**.

NEWS OF INTEREST:

ATF Orange Book Errata (July 2009 printing of ATF Publication 5400.7, ATF Federal Explosives Law and Regulations) : The ATF reports that the "3/4 inch" shackle diameter requirement was erroneously printed as "a-inch" in 27 CFR, Subpart K, on pages 49 through 52. Padlocks must have a case-hardened shackle of at least 3/4" diameter.
